I too am of Native American descent. My grandfather was an Aztec Indian and many do not even consider them as Native Americans, but they were before the white man came along and divided us. I am also a Judeo-Christian and the Scriptures say Where Christ is so there is Liberty. Let us pray for the liberty,harmony and unity of all people. That's what I believe Black Elk saw in his dream. The unity of one people one world. One body, One God who is our head.

I feel that we need to honor the beliefs of the Native Americans of this country as we would the beliefs of every other American, and this name change would be an excellent way of doing so.

I am not a Native American , but I feel it would be a Great Injustice ,if in this day and age we didn't do something to try and right so many of the wrongs , inflicted on the Native American People . Harney's own relatives are even in favor of it!
Change it to BLACK ELK PEAK !

Yes, I absolutely support the campaign. Back in the day, I knew his grandson, Wallace Black Elk, very well? also a medicine man. And if you've never read BLACK ELK SPEAKS, you must.

I firmly believe that we should change the name of the peak to Black Elk Peak. I think it's about time America starts giving back some freedom and land to our brothers the Native Americans. I am part Aztec Indian and I believe that Mother Earth should be treated with care if it's going to stay around for our next generations. Please do the right thing and change the name of this peak. It won't hurt anybody and it will actually benefit others by giving them a history of who the first Americans were! Please don't let this petition go unnoticed. Thank you.

The area is sacred and should have the name Black elk ,, because it's more fitting to the black hills. The people were slaughtered by Harney and the name change seems as though it's restoring peace and honoring the Sioux people that lost their lives.

I stand w/ this group, that justice shall prevail & that the name "Harney Peak" be changed to "Black Elk Peak". It is shocking that landmarks are named after such cruel people; even though they convinced others that their intentions were 'good'.

I think that that Harney peak should be changed to black elks peak because of the injustice done to the Lakota by Harney to our men women and children.

In order for true reconciliation to occur in both the USA and Canada, some of the actions that we take need not be mired in endless debate and rancour. This is a very simple, inexpensive gesture of goodwill that doesn't take anything away from anybody, save General Harney's reputation, which is not even disputed by his own relatives. The Peak should be named to reflect the spirit of Black Elk's vision of oneness and also the spirit of cultural understanding achieved by collaborating with the poet John Neihardt. People just do not generally walk up to the peak (the highest peak east of the Rockies) to pay tribute to General Harney. This is an obvious step toward reconciliation in our respective countries.
